Atlas Gentech Profile & Warranty Terms

ATLAS GENTECH - IMPORTER, DISTRIBUTOR & SERVICE AGENT

The commercial entity, Atlas Gentech, in one form or another, has for the past 35 years been serving the Communications needs of New Zealand as an importer, distributor and service agent for both international and domestic IT manufacturers.

The history of the company traces back to 1972 when the industrial products division of Dominion Electronic Company was changed to Atlas Majestic. In 1982, the company became a subsidiary of Ceramco Corporation and was renamed Atlas Corporation. Two years later in 1984, the professional and industrial divisions of Atlas Corporation were merged to form a new company called Atlas Gentech Limited. In 1988, Atlas Gentech became a subsidiary of Consolidated Electronic Industries Limited. With the closure of CEI in 1990, Atlas Gentech became a stand alone company once again. On 1 October 1991, the company was purchased from Ceramco. On 1 April 2008, the company was purchased by its current owners.

The company has over 35 staff and sells to over 800 customers operating from more than 1200 retail outlets. Atlas Gentech has a large service department and carries over $60,000 in spare parts so we can professionally service all the products that we sell. The company's product range is extensive, ranging from basic corded telephones to communication headsets to the latest in cordless and VoIP technology. Atlas Gentech represents over 20 of the world's leading manufacturers in communication products including:

Many of these brands are market leaders in New Zealand including LG-Nortel ***aria*** Telephone Systems and Plantronics Communications Headsets. Atlas Gentech sells more New Zealand Telepermitted products in more telecommunications categories than any other New Zealand company.

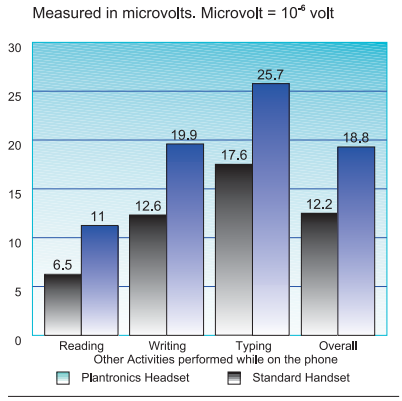
Headset Efficiency & Productivity Guide

Physical & Productivity Benefits Validated.

Headsets proven to reduce muscle tension up to 41%!

Results of a study conducted at Santa Clara Valley Medical Centre in San Jose, CA, provide strong evidence that office and telephone professionals can reduce neck, shoulder and upper back muscle tension as much as 41% by using headsets.



During a three month study, 62 people (33 women and 29 men), ranging from 20 to 63 years old, were involved in tests that evaluated the various levels of muscle tension resulting when office workers engage in other tasks while using the telephone. Study participants, all of whom used the telephone a minimum of three hours a day, were employed in a variety of professions from attorneys, reporters and consultants to small business owners, sales and customer support, engineering and financial operations.

In the first half of the study, participants were asked to use a conventional handset while performing a series of tasks including reading, note taking and typing on a computer. In the second half, participants used a Plantronics headset over phone handsets, providing the first scientific evidence that validates the physical benefits of headsets in reducing neck and upper back muscle tension. In today's demanding work environments, employers and employees alike can benefit from using headsets, resulting in lower medical costs and happier, more productive workers.

Activities	Significance
Reading*	Headset users experienced 41% less muscle tension than handset users.
Writing*	Headset users experienced 36.6% less muscle tension than handset users.
Typing*	Headset users experienced 31.4% less muscle tension than handset users.
Overall**	OVERALL: HEADSET USERS EXPERIENCED 35% LESS MUSCLE TENSION THAN HANDSET USERS.

** % difference between headset and handset means microvolt measurements across all muscle groups.*
*** Overall mean comparision,using average reading, writing and typing mean microvolt measurements.*

Plantronics headsets improve workplace efficiency and productivity by up to 43%!

In a commissioned study, the firm of H.B. Maynard & Co concluded that adding hands free Plantronics headsets to conventional office telephones substantially improves productivity and overall call volume while reducing phone related employee downtime and physical discomfort. In the course of the study, more than 2,000 telephone transactions were observed and recorded on a time/motion basis at four firms over an eight day study period. Workgroups studied included inside sales people, travel agents, technical sales support personnel and stockbrokers with previous headset experience.

The results showed that workers equipped with Plantronics headsets had an overall productivity increase of up to 43% over the control group. Time spent in telephone related work activities was reduced substantially. Repeat calls were made without interruption, and ordinarily time intensive tasks such as typing on a PC were performed far more quickly and efficiently with Plantronics headsets. Not only was a reduced error rate and improved service record noted, but workers on the phone full-time with Plantronics headsets placed an average of 16 more calls per day than those using traditional handsets. Finally, workers equipped with Plantronics headsets reported higher morale, lower fatigue levels and fewer phone related physical complaints. After more than a week of using Plantronics headsets they couldn't imagine going back to using cumbersome handset phones.

Headset Efficiency Guide

Use this chart to calculate how much money a Plantronics headset can save your business?

STEP 1.

Use this chart to determine your productivity increase and time savings.

% of Work Day Spent On Phone	No of Calls Per Day	Total Minutes On Phone	Minutes Saved Per Day	Additional Calls Possible
25%	38	121.6	13.4	4
50%	75	240.0	26.4	8
75%	113	361.6	39.8	12
100%	150	480.0	52.8	16

STEP 2.

Use this chart to calculate your payback and dollar savings.

Calculations	Example	Actual
1) % workday spent on phone	50%	%
2) Mins saved per day (see chart)	26.4 mins	mins
3) Total Hours saved per day (line 2 divided by 60)	0.44 hrs	hrs
4) Hourly Labour Rate	$9.00	$
5) Total Labour Savings per Day per Headset (Line 3 x Line 4)	$3.96	$
6) Total Labour Saving per Month per Headset (line 5x21 working days)	$83.16	$
7) Number of Headset Users	10	
8) Total Savings per month (line 6 x line 7)	$831.60	$
Headset Investment Cost		
9) Cost per Headset	$200	$
10) Total Investment (line 7 x line 9)	$2000	$
Headset Payback Period		
11) Payback Period (line 10 divided by line 8)	2.4 mos	mos
12) 1st Year Headset Savings (12 mos - line 11 x line 8)	$7983.36	$
13) Subsequent Annual Savings (line 8 x 12 mos)	$9979.20	$

How to Select the Right Headset for You.

The Following chart has been designed to help assess your headset application and work environment. This enables you to select the headset that is best for you personally.

Usage & Environment	Recommended Headset
Working in an Open Plan Office Area	H31, H51, H51N, H61, H61N, H101, H101N, H141, H141N, H171, H171N, H251, H251N, H261 & H261N
Need to confer when taking/making a call	H31, H51, H51N, H61, H61N, H101, H101N, H141, H141N, H171, H171N, H251, H251N, H261 & H261N
Reception Area	H31, H81, H141 & H171
Noisy Reception Area	H81N, H141N & H171N
Intensive but Short Duration Calls	H81, H81N, H141, H141N, H171 & H171N
Executive or SoHo Use	H81, H131N, H132N, H171, H351, H351N, H361 & H361N
Headsets are shared with other staff	H51, H51N, H61, H61N, H101, H101N, H251, H251N, H261 & H261N
Emergency Services	H31, H61, H61N, H101, H101N, H261, H261N
Noisy Environments where calls are recorded	H31, H51N, H61N, H101N, H141N, H171N, H251N, H261N, H351N & H361N
Heavy PC Users/Internet Telephony	.Audio 470USB, 480USB, 510USB, 610USB, 625USB, 645USB, 650USB, 770 & 750DSP

Professional Headset Adaptors & Telephones

PLANTRONICS M22

VISTA™ Modular Adaptor

Designed & Engineered For:

Professionals - particularly Wideband VoIP users - Connects with Most Analogue or Digital System Telephones with a keypad on the base (NOTE: will not work with cordless telephones or telephones with keypads in handset).

Major Features

Wideband Audio - if used on a Wideband VoIP System
Clearline Audio Technology improves call quality
Loud Noise Protection, Advanced Echo Management, Background Noise Reduction & Call Volume Equalizer
Adjustable Volume Control Dial & Mute Button
Headset/Handset Selection Switch
Lightweight 3 metre Coil Cord
Requires 2 AA Batteries (included)
Quick Disconnect™ for connection to "H" Series Headsets

PLANTRONICS DA40

USB-to-Headset Adaptor

Designed & Engineered For:

Use of Plantronics H Series Professional Headsets with Voice-over-IP (VoIP) softphones for use in Contact Centres and Enterprise applications.

Major Features

Connects directly to the USB port of a PC
Wideband audio support
Quick Disconnect™ connection to "H" Series Headsets

PLANTRONICS STARBASE 2010™

Deluxe Headset Telephone

Designed & Engineered For:

Light to Heavy Use by Telemarketers, Call Centres, Sales Staff, Service Departments & SOHO.

Major Features

19 One-Touch Memories
Visual "In Use" & Incoming Call Indicators
Message Wait Lamp (80-100v)
Headset Port, Handset or Headset Switchable
Headset Volume Control & Handset Mute Button
Latching Headset Mute Button with Indicator
Recall, Last Number Redial & Pause Buttons
Ringer Pitch and Volume Controls
Wall Mountable (Screws)
Includes Plantronics Quick Disconnect™ Cord

POLARIS EVO 350

Headset Speakerphone

Designed & Engineered For:

Light to Heavy Use by Telemarketers, Call Centres, Sales Staff, Service Departments & SOHO.

Major Features

Speakerphone with On-Hook Dialling
10 One-Touch & 10 Speed Dial Memories
Visual "In Use" & Incoming Call Indicators
Switchable Message Wait Lamp (90v, Polarity Reversal, Alcatel, AT&T, Ericsson MD110 & Siemens Hipath/Hicom)
Headset Port & Supervisor Headset Port
Data Port (RJ11)
Headset Auto Answer Switch
Digital Handset Volume Control & Mute Button
Latching Headset Mute Button with Indicator
Adjustable Recall (100, 200 & 600ms Flash)
Last Number Redial & Pause Buttons
Adjustable Ringer Volume (3) & Tone Pitch (3)
Wall Mountable (In-built Bracket)

PLANTRONICS MX10

Headset Switcher™ Amplifier Adaptor

Designed & Engineered For:

Single headset use with a telephone and/or PC computer. Ideal for Computer Based Training, Computer Telephony and Interactive Games.

Major Features

Connects directly to a phone and a PC Sound Card, Modem, CD Player, Tape Recorder/Player.
Receive Volume Control Dial & Mute Button
Headset/Handset Selection Button
Telephone/Computer Switch
SoundGuard® Plus™ & Call Clarity™ Systems
8' audio cable with 3.5mm plugs
Quick Disconnect™ connection to "H" Series Headsets
NOTE: Does not cater for Stereo sound.

PLANTRONICS DA45

USB-to-Headset Adaptor

Designed & Engineered For:

Use of Plantronics H Series Professional Headsets for Unified Comunications Solutions.

Major Features

Connects directly to the USB port of a PC
Optimized for Unified Communications
Wideband audio support
PerSonoCall® Software
Digital Signal Processing (DSP) Technology
Echo Management reduces VoIP call latency
In-line Volume & Mute Controls & Call Answer/End
Quick Disconnect™ connection to "H" Series Headsets

POLARIS EVO 250

Headset Telephone

Designed & Engineered For:

Light to Heavy Use by Telemarketers, Call Centres, Sales Staff, Service Departments & SOHO.

Major Features

3 One-Touch Memories
Visual "In Use" & Incoming Call Indicators
Switchable Message Wait Lamp (90v, Polarity Reversal, Alcatel, AT&T, Ericsson MD110 & Siemens Hipath/Hicom)
Headset Port & Supervisor Headset Port
Data Port (RJ11)
Headset Auto Answer Switch
Digital Handset Volume Control & Mute Button
Latching Headset Mute Button with Indicator
Adjustable Recall (100, 200 & 600ms Flash)
Last Number Redial & Pause Buttons
Adjustable Ringer Volume (3) & Tone Pitch (3)
Wall Mountable (In-built Bracket)

POLARIS NRX3

Deluxe Headset Speakerphone with LCD Display

Designed & Engineered For:

Light to Heavy Use by Telemarketers, Call Centres, Sales Staff, Service Departments & SOHO.

Major Features

Speakerphone with On-Hook Dialling
LCD Display - number dialled, call timer & clock
Message Wait Lamp (80-100v & 48v LR)
10 One-Touch & 10 Speed Dial EEPROM Memories
Date Port & Headset Port (For Optional Headset)
Handset or Headset Switchable
Adjustable Headset Volume & Handset Mute Button
Latching Headset Mute Button with Indicator
Recall, Last Number Redial & Pause Buttons
Adjustable Ringer Pitch and Volume
Wall Mountable (In-built Bracket)

PLANTRONICS DA60

USB-to-Headset Adaptor with PerSono™ Pro™ Software

Designed & Engineered For:

Use of Plantronics H Series Professional Headsets with Voice-over-IP (VoIP) softphones for Contact Centres.

Major Features

Connects directly to the USB port of a PC
Digital Signal Processing (DSP) for clear audio
Clearline™ audio reduces loud noise on calls
Full Duplex Echo Supression Technology
In-line Volume and Mute Controls
PerSono™ Pro™ Supervisor-Agent Software for audio optimization, call centre agent management, decible monitoring, downloadable software updates.
Quick Disconnect™ connection to "H" Series Headsets

PerSono™ Pro™ Supervisor-Agent Software

PLANTRONICS DA55

USB-to-Headset Adaptor

Designed & Engineered For:

Use of Plantronics H Series Professional Headsets with Voice-over-IP (VoIP) softphones in Contact Centres.

Major Features

Connects directly to the USB port of a PC
Digital Signal Processing (DSP) for clear audio
Clearline™ audio reduces loud noise on calls
Full Duplex Echo Supression Technology
Quick Disconnect™ connection to "H" Series Headsets

Optional Accessory Pack

In-line Volume and Mute Controls and PerSono™ Pro™ Supervisor-Agent Software

PLANTRONICS CT12

2.4GHz Cordless Telephone & Headset System

Designed & Engineered For:

Executives, Professionals, Call Centre Managers

Major Features

2.4GHz Digital Spread Spectrum Technology
30 Communication Channels (Auto or Manual Selection)
Operating Range: 30m indoors/75m outdoors
Backlit LCD Display and Keypad on Remote Pack
Recall, Last Number Redial, Pause, Mute & Hold
AutoTalk Mode (pickup from Base Unit)
Headset Volume (4), Ringer Volume (4) & Melody (6)
100 Name & Number PhoneBook Memories
10 Speed Dial Locations (part of PhoneBook)
1 Hotline Priority One-touch Button
Caller ID Ready (Network Service Required)
Message Waiting LED (Network Service Required)
One way Paging/Handset Locator
Out of Range Warning and Low Battery Warning
Built-in Headset Stand
Talktime: Up to 5.5 Hours Standby Time: Up to 10 Days
Gold-plated connectors on remote pack & headset
Includes Rechargeable 800mAh NiMH Battery, Detachable Belt Clip and PLANTRONICS *FireFly* Convertible Headset.

Professional Cordless Headset Solutions

Optional HL10 Lifter

PLANTRONICS Voyager™ 510S

Bluetooth® Cordless Over-the-Ear Headset System

Designed & Engineered For:

Bluetooth Headset Solution for use in and out of the office for the mobile professional. Seamlessly switch between your office analogue or digital phone and the voice-enabled Bluetooth mobile phone, PDA or laptop - with the touch of a button. Smart technology knows which device is ringing and enables calls using the device of your choice.

Major Features

Bluetooth™ v1.1 Headset/Hands-Free Profile
Maximum Operating Range: Up to 10m
Supports Adaptive Frequency Hopping (AFH)
Lightweight all day wearing comfort
Noise-cancelling Microphone with WindSmart® Technology
In-Use indicator light on Microphone Boom
Boom swivels for use on either ear
One-Touch call answer/end, Volume, Mute and voice-activiated dialling (cellphone model dependent)
Talktime: 6 Hours/Standby Time: 100 Hours
Headset folds-up for easy storage
Includes Voyager 510 Ear-Mounted Bluetooth Headset (15 grams) with Rechargeable Lithium-Ion Polymer Battery.

Optional Accessories

HL10 Handset Lifter, **Oli** Online Indicator Light, Car Lighter Adaptor, USB Headset Charger & Belt-clip Carry Pouch.

DECT™

Optional HL10 Lifter

PLANTRONICS CS351N

DECT Cordless Noise Cancelling Monaural Headset System

Designed & Engineered For:

Call Centre Managers/Staff & Heavy Headset Users.

Major Features

DECT Digital Standard Cordless Technology
Operating Range: 50m indoors/100m outdoors
Out of Range Warning & Low Battery Warning
Receive Tone & Transmit Volume Control
Noise Cancelling Monaural Headset with Talk Button, Mute, Volume Control & In-Use Indicator
IntelliStand™ Function (requires HL10 Lifter)
Talktime: Up to 10 Hours/Standby Time: Up to 50 Hours
Charge Time: 1 Hour (50%) or 3 Hours (100%)
Headset Weight: 70 grams
Includes *SupraPlus* Wireless Noise Cancelling Monaural Headset & Rechargeable Lithium-Ion Polymer Battery.

Optional Accessory

HL10 Telephone Handset Lifter.

DECT™

Optional HL10 Lifter

AVAYA AWH65+

DECT Cordless Over-the-Ear Headset System

Designed & Engineered For:

Executives, Professionals & Call Centre Managers.

Major Features

DECT Digital Standard Cordless Technology
Operating Range: 50m indoors/100m outdoors
Out of Range Warning & Low Battery Warning
Receive Tone & Transmit Volume Control
Noise Cancelling Microphone Headset with Talk Button, Mute, Volume Control & In-Use Indicator
IntelliStand™ Function (requires HL10 Lifter)
Talktime: Up to 9 Hours/Standby Time: Up to 60 Hours
Charge Time: 1 Hour (55%) or 3 Hours (100%)
Headset Weight: 27.5 grams
Includes *C60* Wireless Convertible Headset, Rechargeable Lithium-Ion Polymer Battery, extra headband & ear cushion.

Optional Accessory

HL10 Telephone Handset Lifter.

DECT™

Optional HL10 Lifter

PLANTRONICS CS60

DECT Cordless Over-the-Ear Headset System

Designed & Engineered For:

Executives, Professionals & Call Centre Managers.

Major Features

DECT Digital Standard Cordless Technology
Operating Range: 50m indoors/100m outdoors
Out of Range Warning & Low Battery Warning
Receive Tone & Transmit Volume Control
Noise Cancelling Microphone Headset with Talk Button, Mute, Volume Control & In-Use Indicator
IntelliStand™ Function (requires HL10 Lifter)
Talktime: Up to 9 Hours/Standby Time: Up to 60 Hours
Charge Time: 1 Hour (55%) or 3 Hours (100%)
Headset Weight: 27.5 grams
Includes *C60* Wireless Convertible Headset, Rechargeable Lithium-Ion Polymer Battery, extra headband & ear cushion.

Optional Accessory

HL10 Telephone Handset Lifter.

DECT™

Optional HL10 Lifter

PLANTRONICS CS361N

DECT Cordless Noise Cancelling Binaural Headset System

Designed & Engineered For:

Call Centre Managers/Staff & Heavy Headset Users.

Major Features

DECT Digital Standard Cordless Technology
Operating Range: 50m indoors/100m outdoors
Out of Range Warning & Low Battery Warning
Receive Tone & Transmit Volume Control
Noise Cancelling Binaural Headset with Talk Button, Mute, Volume Control & In-Use Indicator
IntelliStand™ Function (requires HL10 Lifter)
Talktime: Up to 10 Hours/Standby Time: Up to 50 Hours
Charge Time: 1 Hour (50%) or 3 Hours (100%)
Headset Weight: 102 grams
Includes *SupraPlus* Wireless Noise Cancelling Binaural Headset & Rechargeable Lithium-Ion Polymer Battery.

Optional Accessory

HL10 Telephone Handset Lifter.

DECT™

PLANTRONICS CS60USB

DECT Cordless Headset System with USB Connector

Designed & Engineered For:

Executives, Professionals, Call Centre Managers that use a PC Softphone or VoIP Internet Service.

Major Features

DECT Digital Standard Cordless Technology
Operating Range: 50m indoors/100m outdoors
Out of Range Warning & Low Battery Warning
Receive Tone & Transmit Volume Control
Noise Cancelling Microphone Headset with Talk Button, Mute, Volume Control & In-Use Indicator
IntelliStand™ Function (requires HL10 Lifter)
Talktime: Up to 9 Hours/Standby Time: Up to 60 Hours
Charge Time: 1 Hour (55%) or 3 Hours (100%)
Headset Weight: 27.5 grams
Includes C60 Wireless Convertible Headset, Rechargeable Lithium-Ion Polymer Battery & USB Connection Cable.

DECT™

PLANTRONICS C65

DECT Cordless Headset

Designed & Engineered For:

Use with many models of DECT GAP cordless telephones or wireless PBX systems with 4 digit codes.

Major Features

DECT Digital Standard Cordless Technology
Operating Range: 50m indoors/100m outdoors
Out of Range Warning & Low Battery Warning
Receive Tone & Transmit Volume Control
Noise Cancelling Microphone Headset with Talk Button, Mute, Volume Control & In-Use Indicator
Talktime: Up to 9 Hours/Standby Time: Up to 60 Hours
Charge Time: 1 Hour (55%) or 3 Hours (100%)
Headset Weight: 27.5 grams
Includes *C65* Wireless Convertible Headset & Rechargeable Lithium-Ion Polymer Battery.

Bluetooth™

PLANTRONICS Voyager™ 510USB

Bluetooth® Headset System with USB Adaptor

Designed & Engineered For:

Bluetooth Headset Solution for use with a Laptop or PC in and out of the office for the mobile professional.

Major Features

Bluetooth™ v2.0 Headset Profile
Maximum Operating Range: Up to 10m
Multipoint Technology for seamless transition between multiple wireless devices, softphones & mobile phones
Remote Ring Detection via PerSonoCall® software
Lightweight all day wearing comfort
Noise-cancelling Microphone with WindSmart® Technology
In-Use indicator light on Microphone Boom
Boom swivels for use on either ear
One-Touch call answer/end, Volume & Mute
Talktime: 6 Hours/Standby Time: 100 Hours
Headset folds-up for easy storage
Convenient usb charging from PC or Laptop
Includes Voyager 510 Ear-Mounted Bluetooth Headset (15 grams) with Rechargeable Lithium Polymer Battery, Desktop Charger, Bluetooth USB Adaptor, 1m USB Extension Cable, PerSonoCall™ Software & Travel Pouch.

Professional Communication Headsets

PLANTRONICS H31

StarSet II® *Headset*

Designed & Engineered For:
Applications demanding top quality acoustics and all-day comfort such as emergency services or vital business discussions.

Major Features
Comfortable over-the-ear design
Versatip® eartip for custom fit & acoustic seal
Can be worn on either ear
Clear Adjustable Voice Tube
SoundGuard® Plus™ & Call Clarity™ Systems
Quick Disconnect™ Connector
Wearing Weight with Clothing Clip: 18 grams.

PLANTRONICS H51

Supra® *Monaural Headset*

Designed & Engineered For:
Heavy Users such as Receptionists, Telemarketers & Call Centre Staff.

Major Features
Adjustable Durable Lightweight Monaural Headband
Soft Cushion Receiver over one ear
Can be worn on either ear
Clear Adjustable Voice Tube
SoundGuard® Plus™ & Call Clarity™ Systems
Quick Disconnect™ Connector
Wearing Weight with Clothing Clip: 42 grams.

PLANTRONICS H51N

Supra® *Monaural Noise Cancelling Headset*

Designed & Engineered For:
Noisy Environments such as Reception Areas, Sales Departments and Call Centres.

Major Features
Adjustable Durable Lightweight Monaural Headband
Soft Cushion Receiver over one ear
Can be worn on either ear
Noise Cancelling Uni-directional Microphone
Flexible Microphone Boom
SoundGuard® Plus™ & Call Clarity™ Systems
Quick Disconnect™ Connector
Wearing Weight with Clothing Clip: 43 grams.

PLANTRONICS H61

Supra® *Binaural Headset*

Designed & Engineered For:
Heavy Users such as Receptionists, Telemarketers & Call Centre Staff.

Major Features
Adjustable Durable Binaural Headband
Soft Cushion Receivers over both ears
Clear Adjustable Voice Tube

Includes Power Adaptor & 4-position Foot Stand
Optional Accessories
536M 36-Button DSS Console (3 modules maximum)
560M 60 SoftKey LCD DSS Console (3 modules maximum)
Plantronics unamplified Polaris Headsets
Third Party Interoperability
BROADSOFT® BROADWORKS Enhanced SIP, NORTEL NETWORKS MCS 5100 & 5200 SIP, SYLANTRO SIP (B Support) & ASTERISK.
Also Available: **57i-CT** with DECT Cordless Handset

57i-CT

PMR Radios & Data Telemetry Modules

ORICOM PMR655

2-Way UHF Personal Radio Service Radio Telephone
Designed & Engineered For:
Recreational and Selected Business Activities
Major Features
500mw Power
40 Channels 2-Way UHF CB Radio
No Operating Licence Required & No Call Charges
Operating Range: Up to 3km
LCD Display
Volume Control
Roger Beep Confirmation
Requires 3 AAA Alkaline batteries (not supplied).
Includes Belt Clips.

ORICOM PMR1000R

2-Way UHF Personal Radio Service Radio Telephone
Designed & Engineered For:
Recreational and Selected Business Activities
Major Features
1 Watt of Power
40 Channel 2-Way UHF CB Radio
No Operating Licence Required & No Call Charges
Operating Range: Up to 7km
Range Extender Mode (Duplex Mode)
Backlit LCD Display
Volume Control
Roger Beep Confirmation Tone
VOX, Call Tone Alert & Channel Busy Indicator
Keypad Lock & Nuisance Delete
Headset Jack
Included Accessory Pack
Dual Desktop Charger & 2 NiMH Battery Packs.

ORICOM PMR3000R

2-Way UHF Personal Radio Service Radio Telephone
Designed & Engineered For:
Recreational and Selected Business Activities
Major Features
1 Watt of Power
40 Channel 2-Way UHF CB Radio
No Operating Licence Required & No Call Charges
Operating Range: Up to 7km
Range Extender Mode (Duplex Mode)
Backlit LCD Display
38 Interference eliminator codes (CTCCS)
Volume Control & Squelch
Roger Beep Confirmation Tone
VOX, Call Tone Alert & Channel Busy Indicator
Keypad Lock & Nuisance Delete
Headset Jack
Included Accessory Pack
Includes, 2 Ni-MH Batteries, Dual Charging Pod,
2 Lanyards, 2 VOX Headsets & 2 Belt Clips.

MOTOROLA Talkabout® T5419R

2-Way UHF Personal Radio Service Radio Telephone
Designed & Engineered For:
Recreational and Selected Business Activities
Major Features
500mw Power
40 Channel 2-Way UHF CB Radio
No Operating Licence Required & No Call Charges
Operating Range: Up to 3Km
38 Interference Eliminator Codes (CTCCS)
Backlit LCD Display
VOX with optional headset
Range Extender Mode (Duplex Mode)
Keypad Lock & Tones
Included Accessory Pack
Belt clips, 6 AA Batteries & 2 Interchangeable Faceplates.

MOTOROLA Talkabout® T5509R

2-Way UHF Personal Radio Service Radio Telephone
Designed & Engineered For:
Recreational and Selected Business Activities
Major Features
1 Watt Power
40 Channel 2-Way UHF CB Radio
No Operating Licence Required & No Call Charges
Operating Range: Up to 7km
Range Extender Mode (Duplex Mode)
Backlit LCD Display
38 Interference eliminator codes (CTCCS)
Volume Control
Roger Beep Confirmation Tone
Keypad Lock, & Tones, Time-out Timer, VOX, Call Tones
& Busy Channel Indicator
Headset Jack
Included Accessory Pack
Dual Desktop Charger, 2 NiMH Battery Packs
& 2 Interchangeable Faceplates.

MOTOROLA Talkabout® SX709R

2-Way UHF Personal Radio Service Radio Telephone
Designed & Engineered For:
Recreational and Selected Business Activities
Major Features
2 Watts Power
40 Channel 2-Way UHF CB Radio
No Operating Licence Required & No Call Charges
Operating Range: Up to 10km
Range Extender Mode (Duplex Mode)
Backlit LCD Display
121 Interference eliminator codes (CTCCS)
vibraCall Vibration Alert
Volume Control, Roger Beep Confirmation Tone
Keypad Lock & Tones, Time-out Timer, VOX with Optional
Headset, Call Tones & Busy Channel Indicator
Headset Jack
Included Accessory Pack
Dual Desktop Charger, 2 Holsters
& 2 NiMH Rechargeable Battery Packs.

MAXON SD125

Data Telemetry Module
Designed & Engineered For:
Commercial Telemetry Applications such as Monitoring,
Remote On/Off and Traffic Control
Major Features
VHF & UHF Operating Frequencies
Programmable 16 Channels (internal by dip switch)
Programmable Channel Spacing (12.5 & 25kHz)
Programmable Power (1-5 watts)
Cast Aluminium Housing with Mounting Holes
15 Pin Interface Connector
Dimensions: 118mm (L) x 62mm (W) x 30mm (D)
Weight: 253 grams
Optional Accessory
Internal Modem

MAXON SD160

Data Telemetry Modules
Designed & Engineered For:
Commercial Telemetry Applications such as Monitoring,
Remote On/Off and Traffic Control
Major Features
Synthesised VHF & UHF Operating Frequencies
Programmable 16 Channels (internal by dip switch)
Programmable Channel Spacing (12.5 & 25kHz)
2 watts fixed Power
Operating Voltage 7.2v to 18v DC
Busy Channel Lockout, Time-out Timer
Marked Idle, TX Delay, Courtesy Sleep, Power Save
Cast Aluminium Housing with Mounting Holes
15 Pin Interface Connector
Dimensions: 125mm (L) x 58mm (W) x 32mm (D)
Weight: 253 grams
Optional Accessories
Internal Modem
GPS Receiver

MAXON SD170

Data Telemetry Modules
Designed & Engineered For:
Commercial Telemetry Applications such as Monitoring,
Remote On/Off and Traffic Control
Major Features
Synthesised VHF & UHF Operating Frequencies
Programmable 16 Channels (internal by dip switch)
Programmable Channel Spacing (12.5 & 25kHz)
Programmable Power (1-5 watts)
Operating Voltage 7.2v to 18v DC
Busy Channel Lockout, Time-out Timer
Marked Idle, TX Delay, Courtesy Sleep, Power Save
Cast Aluminium Housing with Mounting Holes
15 Pin Interface Connector
Dimensions: 125mm (L) x 58mm (W) x 32mm (D)
Weight: 253 grams
Optional Accessories
Internal Modem
GPS Receiver

Business & Scientific Calculators

HEWLETT PACKARD 10bII

Financial Calculator

Designed & Engineered For:
The Economical Choice for Business
Major Features
1 Line x 12 Character LCD Display
Numeric Keypad
Algebraic Entry-Logic System
Memory of 15 Stored Registers
Over 100 Functions - Time Value of Money, Amortization, Discounted Cash Flows, Loans, Savings, Leasing, Algebraic.

HEWLETT PACKARD 17bII+

Financial Calculator

Designed & Engineered For:
The High-Powered Professional Business Calculator for Real Estate, Banking and Finance Professionals
Major Features
2 Lines x 22 Character LCD Display
AlphaNumeric Keypad & HP Solve
Clock with Alarm
Calendar with Appointments
Algebraic & RPN Entry-Logic Systems
28k User Memory
Over 250 Functions - Loans, Leasing, Depreciation, Date Arithmetic, Interest Rate Conversions, 3200 Cash Flows, etc.

HEWLETT PACKARD 39gs

Graphing Scientific Calculator

Designed & Engineered For:
Ideal for Maths Students
Major Features
131 x 64 pixel LCD Display
256kb RAM Memory
Memory Expandable to 1mb
600 Built-in Functions
2D Graphing Function
Algebraic Entry Logic (without CAS)
Interactive History of Calculations
Statistic Functions
Applets/E-lessons
USB/RS232 Serial Port & Infrared
Hard Slide-on Cover

HEWLETT PACKARD 20b

Financial Calculator

Designed & Engineered For:
Students and Professionals for finance, business and real estate functions.
Major Features
2 Line x 12 Character LCD Display
Numeric Keypad
RPN, Hierarchal or Chain Algebraic Entry-Logic System
Maths - trigonometry, hyperbolic & advanced probability functions
Memory of 50 CashIfows or data items
10 Stored Registers
Time Value of Money, Amortization, Bonds, Depreciation, Discounted Cash Flows, Loans, Savings, Leasing, Algebraic.

HEWLETT PACKARD 10s

Scientific Calculator

Designed & Engineered For:
Ideal for Basic Maths and Science Students
Major Features
2 Line LCD Display
Dual Power - Solar & Battery
Math and Statistical Functions
Trignometry & Complex Conversions
Basic Science & Fractions
Over 240 Built-in Functions
Slide-on Protective Cover

HEWLETT PACKARD 9g

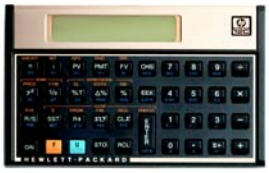
Graphing Scientific Calculator

Designed & Engineered For:
Ideal for Maths Students
Major Features
2 Line x 10 Character Display
400 Programming Steps
Split Screen for Equations & Graphing
Algebraic Entry-logic System
26 Memory Register
Statistics
Base N and Math Functions
Fraction Mode

HEWLETT PACKARD 40gs

Graphing Scientific Calculator

Designed & Engineered For:
Ideal for Maths Students
Major Features
131 x 64 pixel LCD Display
Dynamic Split Screen Function
256kb RAM Memory
Memory Expandable to 2mb
600 Built-in Functions
2D Graphing Function
Interactive History of Calculations
Math, Statistical & Graphing Features
Computer Algebraic System (CAS)
Vector Operations
USB/RS232 Serial Port & Infrared
Computer Link
Hard Slide-on Cover



HEWLETT PACKARD 12c

Financial Calculator

Designed & Engineered For:
The worlds' largest selling Business Calculator for Real Estate, Banking and Finance Professionals
Major Features
1 Line x 10 Character LCD Display
Numeric Keypad
RPN Entry-Logic System
Memory for 99 Steps
Over 120 Functions - Loans, Leasing, Depreciation, Bond price & yield to maturity, 20 Cash Flows, Amortization, etc.

HEWLETT PACKARD 30s

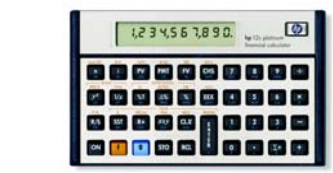
Scientific Calculator

Designed & Engineered For:
Ideal for Science Students and Professionals
Major Features
2 Lines x 12 Character LCD Display
Algebraic Entry-Logic System
Over 250 Science & Math Functions
Statistical Analysis, Fractions

HEWLETT PACKARD 48gII

Graphing Scientific Calculator

Designed & Engineered For:
Ideal for Engineers and Surveyors
Major Features
131 x 64 pixel LCD Display
256kb RAM Memory
Memory Expandable to 2mb
Over 2,300 Built-in Functions
Graphics & Calculus Combined
2-D/3-D plotting, graphics, algebra, quadratic and polynomial features
3 Input Modes (Textbook, Algebraic or TRPN Entry Logic)
Computer Algebra System (CAS) delivers dynamic symbolic manipulation and numeric solving
Programme Library
USB/RS232 Serial Port & Infrared
Downloads from HP Website
Hard Slide-on Cover



HEWLETT PACKARD 12c PT

PLATINUM Financial Calculator

Designed & Engineered For:
The worlds' largest selling Business Calculator for Real Estate, Banking and Finance Professionals
Major Features
1 Line x 10 Character LCD Display
Numeric Keypad
Algebraic & RPN Entry-Logic Systems
Memory for 400 Steps
Over 130 Functions - Loans, Leasing, Depreciation, Bond price and yield to maturity, 30 Cash Flows, etc.

HEWLETT PACKARD 35s

Scientific Calculator

Designed & Engineered For:
Ideal for Engineers, Surveyors, Science Students, Scientists and Medical Professionals
Major Features
2 Lines LCD Display with Adjustable Contrast
Algebraic & RPN Entry-Logic Systems
800 Independent Storage Registers
30kb Memory RAM
HP Solve & Over 100 Built-in Functions - Statistical Analysis, Fractions, 42 Physics Constants, Basic N Function
Includes Carry Pouch

HEWLETT PACKARD 50g

Graphing Scientific Calculator

Designed & Engineered For:
Ideal for Engineers and Surveyors
Major Features
131 x 80 pixel High Contrast LCD Display
2.5mb Memory (512kb RAM & 2mb Flash)
2-D/3-D plotting, graphics, algebra, quadratic and polynomial features
3 Input Modes (Textbook, Algebraic and RPN Entry Logic)
4 Different Font Sizes and Styles
Flexible & Intelligent Editor
Dynamic Algebra and Calculus
Computer Algebra System (CAS) delivers dynamic symbolic manipulation and solving
Inferential and Descriptive Statistics
USB/RS232 Serial Port & Infrared
SD Card Slot
Downloads from HP Website
Premium Carry Pouch

Altec Lansing - iPod® Docking & Portable Audio

Altec Lansing iM310

Portable Digital Speaker System for iPod®
& Other MP3 Players
Designed & Engineered For:
Portable Personal Use with all iPod® models.
Major Features
Portable, Foldable Design
Folds to 290mm (L) x 155mm (H) x 62mm (D)
Universal iPod® charging dock (Nano compatible)
Alarm Clock with Sleep Timer Features
Auxiliary Input jack for second device connection
AC or battery operated

Bluetooth

Altec Lansing iMT525 SoundBlade

Portable Bluetooth® Speaker System for Mobile Phones
Designed & Engineered For:
Personal Use
Major Features
Wafer Thin - only 1" thick
Bluetooth A2DPP for wireless stereo sound
Bluetooth AVRCP for 2-way remote control via cellphones or Bluetooth enabled PC or Laptops
GSM/CDMA shielding prevents speaker buzz
Dual 2.5" full-range high output speakers
Built in echo-cancelling microphone for speakerphone
Controls for Power On/Off, Pairing, Volume +/-, Play/Pause, Track Forward & Track Back
Auxiliary input jack for second device connection
AC and Battery (6 x AA) powered
Includes Carry Case, Power Adaptor & 3.5mm Stereo Cable

Altec Lansing T612

High-end Home Audio for all iPods® & iPhone®
Designed & Engineered For:
Personal Use
Major Features
4 speakers give Full Audio Spectrum
Powerful, Deep Bass - XdB™ Bass Technology
Dual 3" Full-Drivers & Dual 1" Silkdome Tweeters
Built-in Charging Dock for iPhone® and iPod®
Auto Music Mute for iPhone® Calls
Immune to mobile phone interference
Wireless Remote - Track forward/back, Volume, Bass & Treble Controls
MP3 Player Jack - Connect your MP3 or CD player
Wall-mountable (wall-mounting kit available separately)
Includes Remote Control & Power Adaptor
Power: 60 watts RMS & 120 watts Peak Power

Altec Lansing iM600

Portable Digital Speaker System for iPod®
& Other MP3 Players
Designed & Engineered For:
Portable Personal Use with all iPod® models.
Major Features
Portable, Foldable Design
Folds to 283mm (L) x 152mm (W) x 43mm (D)
Works with all iPod® models
iPod® dock allows data transfer and charging
Expanded Sound Stage (ESS) Technology
Integrated Digital FM Radio Tuner with LCD Display
Alarm Clock with Sleep Timer Features
Auxiliary Input jack for second device connection
Rechargeable Lithium-ion battery last over 7 hours
Includes Wireless Remote Control & Power Adaptor

Altec Lansing iMT207 Orbit

Portable Speaker for MP3 Players & Mobile Phone
Designed & Engineered For:
Personal Use for use with cellphones or MP3 players
Major Features
Packable/Portable – fits in large pocket
360°Sound – Single up-firing neodymium driver
3 x AAA Batteries provide up to 24 hours playing time
Shock Resistant
Personal Listening Configuration (place on edge)
Twist On/Off
Integral Cable management

Altec Lansing iM812

Ultimate Wireless System for iPod®/CD/MP3
Designed & Engineered For:
Single room Wireless Audio Entertainment for use with all iPod® models. Dock & Charge your iPod® wherever.
Major Features
2.4GHz Operating Frequency (up to 30m range)
Built-in Digital FM Radio
Drivers: 4" mid-bass & 1" silk dome tweeter (per channel)
Inputs: iPod®, FM & Auxillary
Dimensions: Speaker: 17½" (W) x 10¾" (H) x 5" (D)
Dock: 4¾" (W) x 1 1/8" (H) x 5 1/8" (D)
Weight: 11.9 lbs. (Speaker)
Includes Wall mounting bracket & learning remote.
Power: 50 watts RMS per channel, 100 watts RMS

Altec Lansing iM812/2

Ultimate Wireless System for iPod®/CD/MP3
Designed & Engineered For:
Multi-Room Wireless Audio Entertainment with your iPod®. Dock & Charge your iPod® wherever you want.
Major Features
2.4GHz Operating Frequency (up to 30m range)
Built-in Digital FM Radio
Drivers: 4" mid-bass & 1" silk dome tweeter (per channel)
Inputs: iPod®, FM & Auxillary
Dimensions: Speaker: 17½" (W) x 10¾" (H) x 5" (D)
Dock: 4¾" (W) x 1 1/8" (H) x 5 1/8" (D)
Weight: 11.9 lbs. (Speaker)
Includes Extra Speaker, 2 Learning Remote Controls & 2 Wall Mounting Brackets.
Power: 50 watts RMS per channel, 100 watts RMS

Altec Lansing iM7

Portable Digital Speaker System for selected iPods®
Designed & Engineered For:
Portable Personal Use with iPod® Classic & Nano models
Major Features
Portable Design (runs on batteries/plugs into walls)
iPod® charging dock
Works with iPod® Classic and Nano models
4" side-firing subwoofers with XdB™ Bass Technology
Dual 3" neodymium drivers & 1" neodymium tweeters
Video output for IPod® Photo - play albums on TV
Auxiliary input jack for second device connection
AC or battery operated
Includes Remote Control & Universal Power Adaptor

Altec Lansing iMT217

***nobi** Portable Speaker for Nokia® XpressMusic Phone*
Designed & Engineered For:
Personal Use with Nokia® XpressMusic Cellular Phones
Major Features
Project a 360-degree sound field
Nokia Music Xpress® jack
Shock-resistant
Long Playing Time – 18+ hours on 3 AAA batteries
Includes Carry Strap

Altec Lansing - 2.0 & 2.1 PC Powered Audio Systems

Altec Lansing BXR1120

2.0 PC Powered Audio System

Designed & Engineered For:
Personal Use for PC and MP3 connection
Major Features
2.5" full range drivers for quality audio playback
Built in controls include Power, Volume & Tone
Auxiliary input for MP3 player connection
Headset jack for private listenng
Shielded satellites for use near video monitors
Colour-coded cables for easy installation
Wall mountable satellites (Kit available separately)
Includes iPod®/MP3 cradle
Power: 3 watts RMS & 6 watts Peak Power

Altec Lansing VS1520

2.0 PC Powered Audio System

Designed & Engineered For:
Personal Use for PC and MP3 connection. **Convertible design**, let's you place the satellite speakers upright on your desk or interlock them into a soundbar to fit under your flat-screen monitor.
Major Features
2.5" ported speakers with transparent metal grilles
Auxiliary input for MP3 player
Front panel Headphone jack for private listening
Power, Volume & Tone Controls
Colour-coded cables for easy installation
Power: 3 watts RMS & 6 watts Peak Power

Altec Lansing VS2420

2.0 PC Powered Audio System

Designed & Engineered For:
Personal Use. Versatile design looks great next to your flat-panel screen. Great for music and gaming.
Major Features
Dynamic EQ creates quality bass without a subwoofer
Engineered dual 2.5" drivers deliver a full sound spectrum
Auxiliary input for iPod®, MP3 or CD player
Headset jack for private listenng
Volume & Tone Controls
Colour-coded cables for easy installation
Internal power supply – no bulky brick
Power: 8 watts RMS & 16 watts Peak Power

Altec Lansing BXR1121

2.1 PC Powered Audio System

Designed & Engineered For:
Personal Use for PC & MP3 connection
Major Features
2.5" full range drivers for quality audio playback
4" subwoofer driver for low frequency punch
Auxiliary input for MP3 Player
Headset jack for private listenng
Power, Volume, Bass & Treble Controls
Colour-coded cables for easy installation
Shielded Satellites for use near video monitors
Wall mountable Satellites (Kit sold separately)
Includes iPod®/ MP3 cradle
Power: 15 watts RMS & 30 watts Peak Power

Altec Lansing VS2421

2.1 PC Powered Audio System

Designed & Engineered For:
Personal Use
Major Features
2.5" ported speakers
5.25" subwoofers slim profile design
Wired controller for Volume, Treble & Mute
Bass Control on sub-woofer
Built-in microphone for VoIP & interactive gaming
Headset Jack for private listening
Auxiliary input for iPod®, MP3 & CD player
Internal power supply – no bulky brick
Colour-coded cables for easy installation
Wall Mountable Satellites
Power: 28 watts RMS & 56 watts Peak Power

Altec Lansing VS4121

2.1 PC Powered Audio System with Remote Control

Designed & Engineered For:
Personal Use
Major Features
Front firing, long-throw 6.5" woofer with solid wood cabinet
Specially engineered 28mm micro-drivers
Unique down-firing 3" mid-bass driver
Power, Volume Bass & Treble Controls
Headset jack for private listenng
Shielded satellites for use near video monitors
Colour-coded cables for easy installation
Power: 31 watts RMS

Altec Lansing VS2521

2.1 PC Powered Audio System

Designed & Engineered For:
Personal Use for PC and MP3 connection.
Convertible design, let's you place the satellite speakers upright on your desk or interlock them into a soundbar to fit under your flat-screen monitor.
Major Features
2.5" ported speakers with transparent metal grilles
Space saving 5.25" Long Throw sub-woofer
Headset jack for private listenng
Front panel input jack for MP3 player
Colour-coded cables for easy installation
Power: 28 watts RMS & 56 watts Peak Power

Altec Lansing VS4221

2.1 Powered Premium PC Audio System

Designed & Engineered For:
Personal Use
Major Features
Front firing, 6.5" long-drive woofer in a wooden cabinet
Two Pivoting 28mm full-range micro-drivers
3" mid-bass driver position
Headset jack for private listenng
Built-in RCA inputs for TV or video gaming
Includes wireless remote for control of master volume, treble, bass, mute, loud and default
Shielded satellites for use near PC monitors
Colour-coded cables for easy installation
Power: 35 watts RMS

Altec Lansing FX4021

Music/Home 2.1 PC Powered Audio System

Designed & Engineered For:
Personal Use
Major Features
Two 40mm midrange drivers & 18mm high-end tweeter
Dual Isobaric 5.25" subwoofers
Expanded Sound Stage (ESS) Technology
Wireless Remote for Volume, Bass & Treble Controls
Hardwired control pod for stand-by, master, bass & treble
Headset jack for private listenng
Auxiliary Jack for iPod®, MP3 or CD Player
Magnetically Shielded Cast Metal Stands
Wall-mountable satellites
Power: 46 watts RMS

Altec Lansing - 5.1 PC Stereo, Home Theatre & Headphones

Altec Lansing VS3251

Music/Home 5.1 PC Powered Audio System

Designed & Engineered For:
Personal Use in a Private or Home Office
Major Features
Dual Mode System - Surround Sound & Stereo
5 Satellites 2.5" Full Range Drivers
Isobaric 5.25" Long Throw Subwoofer
Headset jack for private listenng
Auxiliary input for iPod®, MP3 or DVD Player
Wireless remote – standby, volume, treble & bass
Wall mountable satellites
Power: 70 watts RMS

Altec Lansing FX5051

5.1 Powered PC Surround Speaker System

Designed & Engineered For:
Personal Use in a Private or Home Office
Major Features
Dual Mode System - 6 Channel Surround Sound & Stereo
5 Satellites 2.5" Full Range Drivers
Dual 6.5" Long Throw Subwoofers with Isobaric Configuration
Headset jack for private listenng
Auxiliary input for iPod®, MP3 or DVD Player
Wireless remote – standby, volume, treble & bass
Removable Cast metal stands
Wall mountable satellites
Power: 89 watts RMS

Altec Lansing FX3020 SoundBar

2+1 PC Powered Audio System

Designed & Engineered For:
SoundBar PC Speaker System for placement under a LCD Monitor.
Major Features
Two 2" full range drivers & a large bass pressure driver
Full Range Angled Speakers
XdB Bass Technology
Expanded Sound Stage (ESS) Technology
Auxiliary input for iPod, MP3 or laptops
Headset jack for private listenng
Front positioned control knob for mute & audio volume

Altec Lansing PT7031

Home Theatre Virtual Surround Sound Audio System

Designed & Engineered For:
Personal Use in a Home Theatre Environment with a LCD or Plasma TV.
Major Features
Virtual 5.1 Surround Sound
3 NXT Digital flat-panel drivers (50mm x200mm)
Slim-profile system replaces cumbersome speakers
No receiver required
Connectivity: TV, DVD, VCR, Cable or Satellite TV
High Definition TV Ready
Decoding: DTS, Dolby Digital & Dolby Virtual Speaker
Digital Inputs: 2 Optical & 1 Coaxial
Analogue Inputs: 3 Stereo
Outputs: Subwoofer and Video OSD
High quality anodized aluminum construction
Dimensions: 1016mm (L) x 170mm (H) x 152mm (D)
Weight: 8.2 kg
Continuous Average Power: 75 watts (25w x 3)
Includes Wall Mounting Bracket, AV Cable & Preprogrammed Universal Remote Control.

Altec Lansing PT8051

Home Theatre Surround Sound Audio System with Wireless Rear Speaker

Designed & Engineered For:
Personal Use in a Home Theatre Environment with a LCD or Plasma TV.
Major Features
5.1 Surround Sound from 2 slim speakers
3 50mm x 200mm NXT Digital flat-panel drivers (Front)
58mm x 100mm drivers (Rear Surround Unit)
2.4GHz Technology Wireless Surround Speaker
Wireless Operating Range: up to 12.2 metres
Slim-profile system replaces cumbersome speakers
No receiver required
Connectivity: TV, DVD, VCR, Cable or Satellite TV
High Definition TV Ready
Decoding: DTS, Dolby Digital & Dolby Virtual Speaker
Digital Inputs: 2 Optical & 1 Coaxial
Analogue Inputs: 3 Stereo
Outputs: Subwoofer and Video OSD
High quality anodized aluminum construction
Dimensions: Main - 1016mm (L) x 170mm (H) x 152mm (D)
Rear Surround Unit - 560mm (L) x 170mm (H) x 152mm (D)
Weight: 8.2 kg (main unit) & 4.4 kg Rear Surround Unit
Continuous Average Power: 125 watts (25 watts x 5)
Includes Wall Mounting Bracket, AV Cable & Preprogrammed Universal Remote Control.

Altec Lansing CHP121

Classic Dual EarBuds Headphone

Designed & Engineered For:
Personal Use
Major Features
Compact Dual EarBud Design
15mm Neodymium Drivers
3.5mm Gold Plated Stereo Mini-Plug
Frequency Response: 20Hz - 20 kHz
Impedance: 16 ohms
Includes Protective Cord Winding Case

Altec Lansing CHP122

Classic Binaural Headband Headphone

Designed & Engineered For:
Personal Use. Ideal for sports applications
Major Features
Lightweight Binaural Headband Design
30mm Neodymium Drivers
Soft Foam Ear Pads
In-line Volume Control
3.5mm Gold Plated Stereo Mini-Plug
Frequency Response: 100Hz - 18 kHz
Impedance: 32 ohms

Altec Lansing CHP223

Classic Binaural Behind-the-neck Headphone

Designed & Engineered For:
Personal Use. Ideal for active lifestyle.
Major Features
Binaural Behind-the-neck Design
36mm Neodymium Drivers
Interchangeable Colour Foam Ear Pads
In-line Volume Control
3.5mm Gold Plated Stereo Mini-Plug
Frequency Response: 20Hz - 20 kHz
Impedance: 32 ohms

Altec Lansing CHP227

Classic Dual Ear Clip Headphone

Designed & Engineered For:
Personal Use
Major Features
Dual Contoured Ear Clip Design
15mm Neodymium Drivers
Interchangeable Colour Ear Pads
3.5mm Gold Plated Stereo Mini-Plug
Frequency Response: 20Hz - 20 kHz
Impedance: 32 ohms
Includes Travel Pouch

Altec Lansing - MUXZ, UHP & UPS Headphones

Altec Lansing CHP524

Classic Binaural Headband Headphone

Designed & Engineered For:
Personal use while listening to music at home or work.
Major Features
Binaural Padded Headband Design
Studio Grade 40mm Neodymium Drivers
Swivel Ear Cups with DJ Monitoring Capabilities
In-line Volume Control
3.5mm Gold Plated Stereo Mini-Plug
Full-Size Phone Jack Adaptor
Frequency Response: 20Hz - 20 kHz
Impedance: 32 ohms

Altec Lansing UHP101

Upgrader SnugFit™Dual Earbud Headphone

Designed & Engineered For:
Personal use while walking or hiking.
Major Features
Memory Foam Cap Design Earphones one size fits all memory foam tips that conform to the ear for a custom fit
Moisture Resistant Design
15mm Neodymium Drivers
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Altec Lansing UHP303

Upgrader AirFit™Behind-the-Neck Headphone

Designed & Engineered For:
Personal use while exercising or outdoor activities
Major Features
Open Air Design
Lightweight Titanium Neckband
30mm Neodymium Drivers
Moisture-wicking microfiber ear pads
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Altec Lansing UHS301

Upgrader SnugFit™Earbud Headphone

Designed & Engineered For:
Personal use while walking or hiking.
Major Features
Soft Silicone EarBud Design
Moisture resistant design
15mm Neodymium Drivers
iPhone™, iPod™ and MP3 Player Compatible
2.5mm Adaptor
In-line Mic, Call Answer/End, Volume & Mute Controls
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Altec Lansing MHP206

MUZX™Butterfly Design Dual Earbud Headphone with Crystalized Swarovski Elements

Designed & Engineered For:
Personal use by women.
Major Features
Precision-cut CRYSTALIZED™ Swarovski elements: jeweled flowers on the earbuds and a stunning butterfly on the choker.
9mm Neodymium Drivers
Soft-fit Silicone Ear Tips (Small, Medium & Large included)
3.5mm Gold Plated Stereo Mini-Plug
Frequency Response: 20Hz - 20 kHz
Impedance: 16 ohms

Altec Lansing UHP307

Upgrader AirFit™ Ear Clip-S Earphones

Designed & Engineered For:
Personal use while running & jogging.
Major Features
Open Air Design
Moisture resistant construction
Secure Ear Suspension System Soft Silicone or Kraton covers a Custom-curved Spring Steel Ear Hangar
15mm Neodymium Drivers
Washable Silicone Ear Caps
Multiple Adjustment Angles
In-line Volume Control
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Altec Lansing UHP336

Upgrader SnugFit™In-Ear Headphone

Designed & Engineered For:
Personal use at home or office with professional musician grade sound quality and armature drivers.
Major Features
Earbud Design with Detachable Cable
Precision vented armature driver
Silicon Tips
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Noise isolation: 26 dB
Impedance: 32 ohms
Includes Universal Fit Kit with eight extra eartips, cleaning tool & Neoprene Carry Case.

Altec Lansing UHS306

Upgrader SnugFit™Dual Earbud Headphone

Designed & Engineered For:
Personal use while travelling for the music enthusiast.
Major Features
Soft Silicone EarTips
High Performance Dynamic Neodymium Drivers
Full Spectrum Sound
Noise Reduction: 14 dB
iPhone™, iPod™ and MP3 Player Compatible
2.5mm Adaptor
In-line Mic, Call Answer/End, Volume & Mute Controls
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 17 ohms
Includes 6 piece Fit Kit & Neoprene Carry Case.

Altec Lansing MHP306

MUZX™ "Buddies" Dual Earbud Headphone

Designed & Engineered For:
"Buddies" feature lets your friend plug in a second pair of earphones and listen to your music at the same time you do.
Major Features
Dual Earbud Design
10mm Neodymium Drivers
Soft-fit Silicone Ear Tips
3.5mm Gold Plated Stereo Mini-Plug
Frequency Response: 20Hz - 20 kHz
Impedance: 16 ohms

Altec Lansing UHP301

Upgrader SnugFit™ Earbud Headphone

Designed & Engineered For:
Personal use while walking or hiking.
Major Features
Silicone Maximum Comfort Cap Design
15mm Neodymium Drivers
Silicon Tips (Includes small, medium and large)
Moisture resistant design
In-line Volume Control
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Altec Lansing UHP304

Upgrader AirFit™Binaural Headband Headphone

Designed & Engineered For:
Personal use in studios or while relaxing.
Major Features
Open Air Design
Lightweight Titanium Headband
Studio Grade 40mm Neodymium Drivers
Moisture-wicking microfiber Ear Pods
In-line Volume Control
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Altec Lansing UHS307

Upgrader AirFit™Ear Clip-S Headphone

Designed & Engineered For:
Personal use while running & jogging.
Major Features
Open Air Dual Ear Clip-S Design
Custom-curved spring steel ear hangar
Moisture resistant construction
Washable Silicone Ear Caps
15mm Neodymium Drivers
iPhone™, iPod™ and MP3 Player Compatible
2.5mm Adaptor
In-line Mic, Call Answer/End, Volume & Mute Controls
1.2m Tangle-free cloth cable
3.5mm Gold Plated Stereo Mini-Plug
Impedance: 32 ohms
Includes Neoprene Carry Case.

Manufacturer Profiles

Headquartered in Concord, Ontario, Canada, Aastra Technologies Limited for over 100 years has developed and manufactured systems for accessing communication networks. Aastra's product range includes residential and business telephones, screen telephones, PBX, network access terminals and high quality digital video encoders.

Altec Lansing is the industry leader in advanced audio solutions for PCs and related technologies. It is the market share leader in the PC speaker system category. Altec Lansing has received numerous awards including PC Magazine "Editors Best Choice" and Computer Shopper "Best Buy" awards. The company has been awarded a number of U.S. patents for such innovative concepts as side-firing speaker design and theatre-type surround sound.

AUDIOLINE branded telephones, answering machines and Personal Mobile Radios are manufacturered by DORO AB of Sweden. AUDIOLINE products have been sold in New Zealand since 1995.

Founded in 1965, AURORA is a publicly trading company in Taiwan with annual sales exceeding NT$20 billion. Aurora calculators are sold to millions of consumers in over 90 countries worldwide. AURORA was the inventor of the Dual Power system, BIG NUMBER Display, Long Answer Bar and protective Hardcase designs.

The BELCOM SureCall & Slider DECT Cordless Telephones are made by Xingtel, a leading telecommunications manufacturer in China. The BELCOM MOH CD-PLAYER is made by Atlas Gentech.

Clarity, Inc. which was formerly called Walker Corporation was founded in 1969 in Ringgold, Georgia. The company began manufacturing amplified telephone handsets for public telephones in 1975 and patended its Diod Bridge - technology necessary for amplified handsets in 1977. In 1986, the company was acquired by Plantronics and in 1989 created ClarityPower.

DORO AB of Sweden was founded in 1974 and is a worldwide supplier of brand name telecommunications products, most notably *AUDIOLINE and DORO* branded telephones, DECT cordless telephones, answering machines and Caller ID products. DORO has worldwide sales of 1,183,000,000 Swedish Kronas and exports to more than 15 countries.

GE is the leader in the USA market for both the Corded and Cordless Phone segments and the anwering machine segment. GE sells almost 20 million communication products per year in the USA. The GE brand is also strong in parts of Asia and has recently been introduced in Australia and New Zealand.

Founded in 1939, Hewlett Packard is one of the oldest and most respected IT manufacturers in the world. It employs more than 110,000 staff and exports to 120 countries. It is ranked one of the largest companies in the world and sells more than 25,000 products.

Konftel Technology is a subsidiary of Konftel Group located in Sweden. Konftel specializes in audio and video conferencing equipment and is estimated to be the second largest manufacturer of audio conferencing equipment in the world.

Is one of the world's oldest and leading manufacturers of radio frequency based products. Their cordless telephones are sold throughout the world on an OEM basis and their radio telephone, data telemetry and paging products are available in more than 50 countries around the world.

Founded in 1928, Motorola has been a leading provider of two-way communications for over 78 years. In personal communications, Motorola changed the way the world communicated with the introduction of the *DynaTAC* cellphone in 1983 to today's sleek high performance PMR radios.

Newly formed in 2003, Oricom is based in Sydney, Australia and sources telecommunications products from "proven manufacturers" around the world. The current manufacturers also supply to international Telcos and retailers such as Swisscom (Switzerland), KPN (The Netherlands), Telia (Sweden), TeleDenmark (Denmark), Telenor (Norway) and Radio Shack in the USA.

Plantronics invented the lightweight headset, introducing its first product called the MS50 in 1961, over 40 years ago. With Sales of over US$235 million and a staff of more than 2,700 with offices in 18 countries, Plantronics is the world's leading headset manufacturer. NASA has used them extensively in their space programmes, including the 1969 moon landing. It was a Plantronics headset that transmitted Neil Armstrong's famous words back to earth, "One small step for man; one giant leap for mankind."

Polaris is an Australian company that was founded over 20 years ago. Polaris specialises in the importation and distribution of telecommunications products including Headsets, Telephones and Audio Conferencing Systems. The products are sourced from the USA,UK and Italy. It has also developed some of its own products such as the SoundShield acoustical shock protection device.

Is the world's largest supplier of Audio Conferencing Equipment and also supplies video conferencing equipment. Polycom products are available in more than 50 countries around the world.

With the invention of the pointer telegraph by Werner von Siemens, the company was born in 1847, more than 150 years ago. Today, every tenth person around the globe reaches for Siemens technology to make a telephone call. Siemens is a world leader in DECT cordless.

With over 5.5 million telephones installed in over 125 countries worldwide, Teledex is a world leader in providing high quality telephones to the hospitality industry. Teledex phones feature the MultiX™ Message Wait system. Some of the hotels using Teledex phones include: *Best Western Embassy Suites, Four Seasons, Hilton, Hyatt, Holiday Inn, Marriott, Residence Inn, Ritz Carlton, Radisson, Sheraton, Westin* and most Las Vegas Hotels.

In 1879, Thomson-Houston was formed, headquartered in the US, with subsidiaries in Europe and South America. In 1892, General Electric was formed with the merger of Thomson-Houston and Edison General Electric Companies. Today, Thomson produces a full range of telephony products under the Alcatel, GE and Thomson brands and operates in more than 30 countries and is active on growing markets in North America, Europe and Asia. Thomson is listed on the Paris and New York stock exchanges.

Founded in 1976, VTech has revenues over US$600 million and invested US$31 million in Research & Development last financial year. VTech made the world's first 5.8GHz cordless telephone in August 2002 and is a global leader in cordless telephone technology. In the USA, VTech is the market leader in 5.8GHz cordless and has a huge market share with its two brands - VTech and AT&T.
